

Principal's Update

24 March 2020

Dear all

There seems to be some confusion regarding whether the school needs to know if you are keeping your child at home.

Could I request that all parents (who haven't already done so) email the school indicating that your child will be at home for the rest of the term; if that is your decision.

We still need to ensure that parents/carers and the school know where children are during the school day.

If this situation continues into term 2 then I will contact everyone again depending on the information received from the federal and state governments and the Department of Education.

Thank you once again for your support in this challenging time.

Regards

Susan
